

PROPOSED COUNCIL STUDY ISSUE

For CONTINUING ITEMS

For Calendar Year: 2004

Issue Title: Sunnyvale School District School Facilities Planning Study

Lead Department: Community Development Department

General Plan Element or Sub-Element: Socio-Economic Element

1. What are the key issues regarding this item?

The study was approved in response to concerns stated by the Sunnyvale School District that it was not aware of the General Plan buildout intended for the City of Sunnyvale and its subsequent impacts on their student population. The purpose of this study is to provide information to school district officials regarding future City buildout, assist them in creating projections of student populations based on this expected growth and assist in identifying resources for future facilities. This information would also be made available to the other three school districts within City limits; Fremont Union High School District, Cupertino Union School District and the Santa Clara Unified School District.

The City Council approved the proposal to begin this School Facilities Planning Study in conjunction with the Sunnyvale School District on June 17, 2003. This study was also endorsed by the Sunnyvale Elementary School District (SESD) board in August 2003.

2. Current Status:
